

Register today for *Live from the Heart*

June 9, 9:00-11:30 a.m.

Live from the Heart is a partnership between Advocate Christ Medical Center and the Museum of Science and Industry to expose high school students, age 15 and above, and adults to an interactive broadcast of a live open-heart surgery.

Go into the operating room via video conference as a surgical team performs heart surgery. Talk to the surgical team while they are working. Learn about heart health and find out about medical and STEM careers.

The free program will be held virtually via Zoom.
