

May 16, 2022

Education Leader,

The 2022-2023 school year will mark the thirteenth year of Treaty Education in Manitoba. Kudos to the province's school leaders, education practitioners, school communities, and teachers who have embraced Treaty Education, making it a staple in Manitoba's K-12 classrooms.

Dynamic and responsive professional development remains a key facet of Treaty Education implementation. Since its inception, Treaty Education has delivered professional training in-person, blended, and synchronous online.

To date, our team has led Treaty Education training sessions with all of Manitoba's 38 school divisions, as well as First Nations band-controlled schools, independent schools, and the province's faculties of education.

We are excited to continue our professional relationship with Manitoba's educational communities. In 2022 – 2023, Treaty Education is offering **five** synchronous online sessions:

- September 19 & 20, 2022 – Open K-12 Regional Treaty Education Training
- November 23, 2022 – Grade 12 SIC: Treaty Education Training
- December 6 & 7, 2022 – School Admin Treaty Education Training
- January 31 & February 1, 2023 – Open K-12 Regional Treaty Education Training
- February 21 & 22, 2023 – French Language K-12 Treaty Education Training

These sessions will be delivered live, allowing participants to engage in discussions and meaningful dialogue with presenters and other registrants. The two-day gatherings will explore the historical and contemporary contexts of Treaties as well as best-practices and tips for successful Treaty Education implementation. Pre-registration is required. There is no fee and participants will be gifted with a Treaty Kit.

Please reach out to our team for information on how your school can join us on a Treaty learning journey.

Warm Regards,

Amanda Simard

Education Manager
