

Fall hazards in construction and maintenance

Fall protection remains at the top of the list of the 10 most frequently cited OSHA violations. In this class, you will learn about the types of fall protection and prevention systems and when they are needed. We will cover OSHA construction and general industry codes, discuss functions and duties of a competent person as they apply to fall protection, and address inspection, training and documentation.

Classes

Dec. 9-10, 2025	Canton
April 8-9, 2026	Columbus Metro - Delco
