

OSHA 10 Hour Industrial Safety Elements

Hosted by the North Canton Service Office

Who should attend: Individuals involved in General Industry. Often safety managers, supervisors, maintenance employees and safety team members find this course useful. This includes public and private employers in any industry except construction, agriculture and maritime.

What you will learn:

- Effective safety and health evaluation of industry sites;
- Hazard recognition skills and possible solutions to safety issues;
- How to use and implement the rules & recommendations of OSHA's CFR part 1910

After this course, you will be able to:

- Recognize risk factors related to general industry worksites;
- Suggest control measures to mitigate risk factors;
- Interpret rules for OSHA's CFR part 1910 as it applies to your workplace
