

OSHA 10: Construction safety basics

This **two-day** course will be instructed by BWC Safety Professionals to provide a review of occupational safety and health for construction and includes training on the recognition, avoidance, abatement, and prevention of workplace hazards.

Attendees will learn:

- Effective safety and health evaluation of construction work sites
- Hazard recognition skills and possible solutions to safety issues
- Best practices for compliance with OSHA 29 CFR 1926 regulations

For additional details, [explore the in-person flyers by location](#).

Participants who complete the two-day course are eligible to receive an OSHA 10 Construction card. BWC is accredited by IACET to offer 1.0 CEUs for this program. Classes offered at no additional cost to policyholders and their employees.
