

# Fall hazards in construction and maintenance

**Who should attend:** Individuals involved in construction or maintenance and anyone with fall protection concerns.

Fall protection remains at the top of the list of the 10 most frequently cited OSHA violations. In this class, you will learn about the types of fall protection and prevention systems and when they are needed. We will cover OSHA construction and general industry codes; discuss functions and duties of a competent person as they apply to fall protection; and address inspection, training, and documentation.

**January 24 - 25, 2024  
8:30 a.m. - 4:15 p.m.**

## **CANTON**

**BWC Service Office  
339 East Maple Street  
North Canton, OH 44720**
