

BWC offers virtual safety training classes. BWC virtual training classes (VTCs) provide an opportunity for students to learn remotely from the convenience of their home or worksite. They are instructor-led classes providing the opportunity for participation and interaction consistent with the comparable BWC in-person class experience. VTCs offer the same continuing education units (CEUs)* and the same BWC program credits as the equivalent in-person class.

PLEASE NOTE: For users accessing this flyer on a digital device, the class titles are clickable links that will take you directly to the registration page for a seamless experience. If you are not already logged into the Learning Center, you will be prompted to do so.
