# What Do I Do When I Spill a Chemical?

**11:00 a.m. - 12:00 p.m.****June 14, 2022**

History has shown that employees can and have been exposed while trying to clean up a hazardous substance. In order to prevent injury or illness for yourself, it is important to be creative and override the natural instinct to help out. This webinar will go over the procedures and dangers that may be involved if you try to clean up a hazardous material. We will discuss what an incidental amount is and when a Hazmat team should be called. Having written policies and procedures for potential spills at your workplace and training employees for all possibilities is essential to keep your employees safe.

\* BWC is accredited by IACET to offer 0.1 CEUs for this webinar. Completion of this webinar also qualifies for a variety of BWC discount program credits based on employer participation.

- To receive online training credit for BWC programs, provide a BWC policy number during registration, attend the whole session, and pass the knowledge assessment.
- When your registration is complete, you will receive a confirmation email with instructions for joining the webinar. It is recommended you click the link within your email approximately five minutes before start time.

# Safety Training for New Employees

**11:00 a.m. - 12:00 p.m.**  
**June 28, 2022**

Before engaging in any potentially hazardous activities, workers must receive appropriate safety training from their employer, as defined in OSHA standards. In this webinar we will cover the benefits of training, what OSHA requires, and tips on planning and providing interactive and effective training for new employees.
