

BWC provides at least one webinar on different safety and health topics each month. Subject matter experts share their knowledge and provide an opportunity for participants to ask questions. These lessons engage students with a variety of interactive methodologies, including whiteboard activities, polling, and chat discussions. To obtain BWC program credit, participants must complete a short knowledge assessment within the BWC Learning Management System after the webinar and earn a passing score. If the webinar provides credits, the host will provide further details regarding requirements for those seeking BWC program credit or Continuing Education Units (CEU)s during each webinar.
