## Accident Investigation: Ergonomic Injuries

**11:00 a.m. - 12:00 p.m.**  
April 12, 2022

Musculoskeletal disorders (MSDs), sometimes called “ergonomic injuries,” account for nearly 30% of workplace injuries and illnesses, yet these injuries are often not investigated properly to identify root causes and corrective actions. This webinar will discuss how investigating ergonomic injuries differs from traditional injuries and strategies employers can use for investigating these injuries.

\* BWC is accredited by IACET to offer 0.1 CEUs for this webinar. Completion of this webinar also qualifies for a variety of BWC discount program credits based on employer participation.

- To receive online training credit for BWC programs, provide a BWC policy number during registration, attend the whole session, and pass the knowledge assessment.
- When your registration is complete, you will receive a confirmation email with instructions for joining the webinar. It is recommended you click the link within your email approximately five minutes before start time.
