

Out of Africa Wildlife Park

Wildlife Photography Workshops

with Kathleen Reeder

For more information, visit KathleenReeder.com or OutofAfricaPark.com. Register online at <http://kathleenreeder.com/workshops/category/out-of-africa/>.

WHO SHOULD ATTEND: Amateurs, Advanced Amateurs, Professionals

WHAT YOU SHOULD KNOW: You need to be familiar with your camera to make suggested setting changes (including f-stop, shutter speed, ISO and exposure compensation) on your own. Please note this is not a workshop to learn how to use your camera.

PHYSICAL REQUIREMENTS: Participants should be in good health, able to step onto and off of a bus frequently, able to stand in place for up to an hour and able to walk up to a 1/4 mile at a time with a single camera/lens. You will also need to be able to carry your camera bag a short distance a couple of times. If eye level photographs of certain predators are desired, you will need to be able to kneel down and get back up to a standing position without the need to grab and hold the habitat fence.

Join accomplished photographer Kathleen Reeder in this unparalleled wildlife photography workshop to explore the wilder side of photography at Out of Africa Wildlife Park. This private workshop offers many unique and exciting features:

1. An informative and engaging presentation that covers wildlife photography tips, recommended gear, and an illustrative slideshow of photos taken at Out of Africa Wildlife Park to prepare you to maximize your camera's potential while shooting at the Park.
2. An exclusive opportunity to photograph the animals in early light, hours before the Park opens to the public.
3. Hands-on assistance in photographing wildlife in a variety of settings, including outdoor habitats, open ranges and enclosed habitats with artificial lighting.
4. A dedicated trolley and personal driver and guide to provide transportation throughout the Park, narratives of the habitats, and security to protect your equipment.
5. A dedicated vehicle for your Serengeti and Masai Mara free-roaming African animal segment of your experience.
6. Treats to encourage the animals to pose and perform natural behaviors in their habitats that make best use of the light of the day.
7. Unobstructed views to photograph the famed Tiger Splash™ show through fence cut-outs not available to the public.
8. Class size limited to 12 participants so you'll have plenty of one-on-one time with Kathleen throughout the workshop to ask questions and get coaching specific to your individual photographic needs.

The workshop begins Friday evening with Kathleen explaining the basics of capturing extraordinary animal portrait and behavior photos at the Park. Topics include wildlife composition, choosing the right camera exposure mode, aperture, shutter speed, ISO, focus considerations, importance of depth of field, using flash and understanding histograms. Kathleen will walk thru adjusting your camera settings so that you'll be ready to start photographing the animals Saturday morning.

Workshop participants are required to have a digital camera and telephoto lens with a focal range of approximately 70-300mm (DSLR or point-n-shoot equivalent). Also required are plenty of memory card capacity, an extra camera battery and your camera manual. Electronic flash is necessary for photographing in the Indoor Reptile Resort only. Bring your camera, lens, flash and camera/flash manuals to the Friday evening session.

We suggest that everyone stay at the Best Western in Cottonwood. Room costs are not included in the workshop price. You may choose another hotel if it fits your needs better.

Cost: **\$279** + tax (for annual Park members)
\$319 + tax (for non-members)
You may purchase an annual membership at time of registration in order to take advantage of the lower price.

Class Size: **Limited to 12**
First come-first served. Early registration is encouraged. The workshops sell out quickly.

Friday
