LVT STARTING LINE UP FOR THE NYFM 2026 SEASON

NRF Select designed for durability and style is showcasing;

The **Sterling Collection** that offers ultimate value; the **Enduring Collection** provides a perfect balance of value and robustness. The **Superior Collection** is in design phase and will be available Q1 of 2027.

The Seneca Line: This new color lineup features a 28-mil wear layer and a Ceramic Bead coating, perfect for heavy commercial traffic.

The Liberty Collection: Explore NRF's latest USA-made rigid core flooring, featuring a fresh color palette and easy installation.

LX Hausys is Showcasing the newest collection; Crafted Connections

Crafted Connections delivers high-impact wood and tile visuals with the dependable performance of gluedown flooring. Easy installs, durable construction, and fresh, in-demand colors make this collection a confident win for every project. Let's drive results with a line built to move!

Fusion will be showing the newest Fusion Premier Display

Designed with a clean modern design with improved sample presentation offering better color visibility. This new display is easy to maintain, easy to build with one consistent sample size.

Next Floor will be Featuring the newest collection Level Best II & Edgewood

Both collections feature a beautiful, soft color collection in a glue-down format with a 20-mil wear layer and a four-sided bevel. Level Best II is constructed with a 4mm modified PVC compound and a 1mm cork backing for a total thickness of 5mm, making it 40% quieter than traditional glue-down flooring. Edgewood is a 4.5mm, 20 mil DropFit loose lay or full spread adhesive with a four-sided color enhanced bevel

Rounding out the Starting Line up

- Stop by the Lineage booth for a look at our premium wood grain embossed glue down 20-mil wear layer, with a 5mm thickness.
- Visit our Revolution Mills booth for new collections Big Sur a 9"x72" plank 6.5mm thickness and Captiva a 7"x60" with a 5mm thickness.
- Come over to the SLCC booth and revisit Painted Sky a gorgeous 30-mil wear layer, 7.0mm thickness in lengths of 9"x72" that stands strong through every season. This SPC is designed for today's busy homes.

Why did the floor stay loyal?.....
It was always there
