IMPORTANT PRODUCT UPDATE

SKYLINE HUDSON 5" MAPLE NATURAL

EFFECTIVE IMMEDIATELY

Skyline Hudson 5" Maple Natural is being discontinued effective immediately.

If you have a Skyline Hudson 5" Maple Natural project, here is what you need to know.

We want to make this transition as smooth as possible. Mullican Flooring has moved production of Skyline Hudson 5" Maple Natural offshore. NRF has chosen not to continue with the product under its new sourcing arrangement.

VERY LIMITED INVENTORY – NO BACKORDERS

Only a small amount of Skyline Hudson 5" Maple Natural remains available. Once it is gone, we cannot accept any future backorders.

WHAT THIS MEANS FOR YOU

- **Have an active job?** Contact your NRF Sales Representative right away to secure any remaining inventory.
- **Need more material?** Once current stock is sold, we cannot backorder or guarantee this item for future projects.
- **Using another Skyline product?** All other Skyline Hudson products remain available and unaffected by this change.

SKYLINE IS MOVING FORWARD

This is a single-product discontinuation and does not impact the balance of the Skyline collection. The rest of the Skyline program is strong and continues to deliver the quality and performance you expect. In fact, an exciting update to the Skyline program is planned for 2027.

YOUR NEXT STEP

If 5" Maple Natural is tied to an open or upcoming project, contact your NRF Sales Representative today to confirm availability.

THANK YOU

We appreciate your business and continued support.
