

# Community Benefits

As part of our required tax reporting, Aspirus hospitals need to document community benefit activities for **July 1, 2022-June 30, 2023**.

Community benefit activities give back to the community, promote health or healing, and meet community needs.

## We need your help

If you took part in any activities that may count as a community benefit, please let us know.

- Activities must have been done *on work time* or *in your capacity as an Aspirus employee*.
- Both virtual and in-person activities are acceptable.

Examples of activities:

- Serving on a community agency, group or coalition as a representative of Aspirus
- Giving items to another agency, group, coalition or the general population (examples: pulse oximeters, wound supplies, scales, etc.)
- Providing in-kind services, programs or presentations
- Using Aspirus facilities to host community events, classes, and/or meetings

## Learn more

Click the "Community Benefits" link under the "System Info" menu on the Aspirus intranet. Scroll down to "Community Benefits Reporting" for additional information on community benefits – along with the link to report community benefit activities.

## Submit your activities by Aug. 31

Complete the Community Benefits Reporting Form on the Aspirus intranet **by August 31, 2023** (System Info > Community Benefits > Submit Community Benefits Reporting Information).

System Info	Life & Career	Work Tools & Resources	Docum

The form button is located halfway down the Community Benefits page.

The program was successful primarily to benefit the community (e.g., finding).

### FAQ Frequently Asked Questions

Source: www.chausa.org

Make sure to select your correct hospital location from the choices.

- **Not sure your activity counts? That's okay. Fill out the form anyway.** The Community Benefits team will review it and follow up with any questions.

### Got questions?
