

AMH MARCH MADNESS BRACKET CHALLENGE

Join the Challenge!!!

Try your luck at picking the winners of each game in this year's NCAA men's college basketball tournament bracket. Once you've signed up, join the Aspirus Medford Bracket Challenge and create your bracket! Prizes awarded for the top three brackets!

How to Play:

1. Fill out your bracket

Once the teams are selected for the NCAA tournament in March, you'll be able to fill in your bracket. [Click HERE](#) this link and follow instructions to complete your bracket. (If you don't have a free account with CBS Sports, you will be asked to create one.) Pool Password is: Buckets. **It's important to pick every game or else your bracket won't be saved.**

2. Put your bracket up against coworkers

The Aspirus Medford Bracket Challenge has its own leaderboard, so you'll always be able to know who's on top in the standings! Prize awarded to the first place bracket!

3. See where you rank in the competition on the Leaderboards

Scores and standings are updated as games finish and are reflected no later than the morning after a game is played. Access them from the CBS Sports "My Pools". If two or more participants have tied at the end of the tournament, the person with the guess closest to the total points scored in the championship game would be the winner.
