Crescendo Fine Arts - Private Piano Lessons

What do Mozart, Beethoven, Dave Brubeck, Billy Joel, & Adele have in common? They all took piano lessons and became piano legends! And so can your child, with a little time and practice. In the weekly 30-minute lesson, we will cover a range of topics including creative improvising, music reading, dynamic interpretation, technical and physical mechanics of playing, and ear training, as well as learn pieces in a variety of styles. There are several performance opportunities available, including recitals, festivals, and competitions. Learning to play the piano has been shown to increase hand-eye coordination, mental focus, and emotional well-being, and also provides an artistic mode of individual self-expression.
