Hello Rick,

I want to let you know we promoted Assistant News Director Aaron Castleberry to News Director last week.

Aaron started at KAIT nine years ago as an Associate Producer. He worked his way through the ranks as a news producer, reporter, weekend meteorologist, and then morning meteorologist before landing the assistant news director position last year.

Aaron has a meteorology degree from Mississippi State University. He replaces Grendel Levy who left last month after nearly four years as ND.

Aaron is now looking for an assistant news director. Let me know if you need anything else.
