Subject: Director of Engineering Announcement

I'm excited to announce that Bill McCormac has accepted the position of Director of Engineering at KMOV effective immediately.

In June of 1990, Bill McCormac started as a news intern and later returned in 1997 as a news photographer.

Since that time, Bill has held multiple positions, including Executive Producer, Chief Photographer and finally since 2010 as News Operations Manager. Throughout the years, Bill has demonstrated abilities to be proactive, communicative and dedicated to help every department, and every person in it, succeed.

KMOV is incredibly fortunate to have such skilled individuals in Engineering like Bill Knott, David Collins, James Long, Jr., Jeremy Golden, Mark Heatherly, & Tom Ostertag.

That group along with Bill will continue ensuring our operational growth and success.

We will communicate more operational directions with you soon.

Please congratulate Bill on his new position at KMOV.
As always, thank each and every one of you for everything you do for this community!

JD

"Effective teamwork begins and ends with communication"
