I've worked at a few places over the years.

I started my career at WDEF-TV Chattanooga as a part-time A.P., worked my way up to become a Director/Producer

Next stop, WSPA-TV Spartanburg as a Director and found my love of creating and producing locally produced programs. I was fortunate to have an opportunity to produce 3 locally produced shows in the Spartanburg market. "WSSL Tracks", "Kid Sizzle" and a monthly PM news magazine show, simply called "Special Assignment"

I transferred to WJBF as the Operations and Production Manager where I was allowed to continue creating and developing locally produced programs and news specials.

In 2009, I was promoted to my current position and led a combined TV station under a joint operations and shared sales agreement between Media General and Schurz Communications. In this position I oversaw news, marketing, production, and creative services departments for the two stations.

The JOA/SSA ended in 2016 and I continued in the same role with WJBF-TV. WJBF produces over 40 hours a week of live news, 6 locally produced original content weekly programs, several monthly special live event programs and sports programs. Tee Time Augusta was one of my favorite projects, a pre-Masters show that airs in close to 50% of the US markets and of course "Masters Report", 7 nights of comprehensive coverage of the Masters. I started covering the Masters while working at WSPA in 1991. So-- 31 years of experiencing a true labor of love at the Augusta National.

It's been a true honor and a privilege working with the great folks at WJBF.

Now, I'm looking forward to a new chapter with Bahakel Entertainment and Bahakel Communications as the Vice President/Director of Development. I'm very excited to be a part of an innovative company that takes pride in being a service-oriented company dedicated to its clients and the communities in which it serves.

Thanks,
Scott
