Subject: Chris Berg Promotion

I am very pleased to announce Chris Berg has been promoted from his current position as Senior Director of Local Content Development, to Vice President, Local Content Development, effective immediately. Chris will continue to work on content projects that enhance our local operations.

Chris joined Nexstar in 2014 and his leadership has been a tremendous asset to the company. He has used vision, innovation, and professionalism to establish Nexstar as an industry leader in local political programming. In 2022, he secured and produced several high-profile political debates, including those between candidates in the U.S. Senate races in Georgia and Pennsylvania.

These programs, along with more than 40 other debates in 2022, made significant news and showcased Nexstar's commitment to local programming. Chris has also been the leader of our New Year's Eve productions in Las Vegas and Texas and has worked to raise their production values and to make them high-profile events. The local news operations in numerous Nexstar markets have benefited from his expertise and counsel. He is a terrific teacher, mentor, and motivator to all those who have had the pleasure of working with him.

Please join us in congratulating Chris on this well-earned promotion.
