Subject: Andy Delancey- New News Director at WPHL

Hi all- I couldn't be happier to announce that after a thorough and comprehensive search, we have our new News Director at WPHL-17. Andy Delancey has been selected to oversee our content and digital content strategies beginning March 31st of this year. Andy comes to us from WCCO, the CBS owned station in Minneapolis, where he was most recently the Assistant News Director. Andy has an impressive track record of success in his career which spans 26 years in the local news business. Prior to joining WCCO, Andy was the Assistant News Director at WCPO, EW Scripps's ABC affiliate in Cincinnati. Prior to his move to Cincinnati, Andy was an Executive Producer at WPTV in West Palm Beach for 9 years.

Having worked with Andy in Florida and closely following his career, I couldn't be happier to have him lead our growing and emerging team. Andy is an excellent news executive and leader. He has a can-do attitude in the linear and digital space, and his experience will be a huge asset. But most importantly, Andy is an excellent human being who treats others with respect and dignity. I am thrilled he will be joining us!

Please join me in congratulating him and welcoming him to the City of Brotherly Love.

Lloyd
