Subject: News Director

Hi Everyone,

I hope you had a great week. I want to share some great news on this Friday.

Please join me in congratulating Becky Gulden on her promotion to News Director at our Dayton news operation. Becky has really been a driving force with our workflow transformation that has helped set the groundwork for our Newsroom of The Future direction. She's been in Dayton for more than five years as Executive Producer, Assistant News Director and now News Director.

She's a big believer in the digital first news mentality and has really embraced the importance of change and moving forward with a content first strategy.

I'm really excited for Becky. She started her career with us at WSYX in Columbus and is a graduate of our latest Emerging Leaders program. I'm really impressed with her enthusiasm and commitment to moving our newsroom forward on every platform. I also want to thank Kevin Roach, who was a great mentor for her. Kevin is now our Director of AM Content at WJLA.

Have a great weekend.

Scott
