Subject: CONGRATULATIONS DONOVAN MYRIE

Congratulations to Donovan Myrie who will be joining our News 6 management team as Executive Producer of Digital Enterprise.

His mission: help launch our new and incredibly robust plans for our OTT platform “News 6 Plus”.

Donovan will be working with various departments as we begin to create a 24 hour per day programmed stream.

He will collaborate with many in our newsroom to create new and unique content, react to breaking news, and ensure it marries up with our digital and broadcast platforms.

Donovan has been an integral member of the News 6 team for 5 years working as an investigative producer. During that time he has found creative ways to expand his role by creating enhanced data journalism products, becoming an on-air expert during COVID, political and space coverage; basically being available to tackle any challenge I have placed in front of him.

I am incredibly confident in Donovan’s tenacity, creativity and ingenuity. And I know he looks forward to continuing to elevate News 6 coverage and most importantly being of service to the viewer wherever and however they choose to engage with News 6/ClickOrlando’s stellar journalism.

Donovan begins his new role immediately.
