

Statement by DuJuan McCoy, Owner President and CEO of Circle City broadcasting.

"We are excited about our transition of WRTV-ABC into the CCB family. A process that will take several months to complete.

Once we move through the initial phase, we will be expanding the amount of local news aired on WRTV-ABC Monday through Friday in the mornings, as well as on weekends – areas that were previously underserved by the former owner.

Prior to my ownership, WRTV-ABC aired approximately 23 hours per week of local news, a mix of live and recorded telecast. By contrast, WISH-TV already produces more than 90 hours of live local news and entertainment programming each week.

Over the next few months, following our initial transition, WRTV-ABC will increase to more than 30 hours of live local news and entertainment programming per week – distinct and separate from the 90 hours of WISH-TV's content that we currently air. Additionally we also air more than 150 live local sporting events per year on our sister station MyINDY-TV 23.

Circle City Broadcasting remains committed to family, community, and delivering high-quality local news programming."
