Rick,

Thank you for helping us get the word out re: our open News Director position.

We have promoted our Digital Content Director, Seth Ratliff, to be our News Director. This is Seth's first opportunity as a News Director. With Seth's experience as DCD it provides him familiarity of the market and our news team.

Seth is already doing a fantastic job in his new role and responsibilities,

Thanks again for providing us with the opportunity to consider candidates outside of our own team. We had some very interesting conversations and considerations before reaching our decision.

I hope it is a long time before we will need your help again.

Regards,
Kalvin
