After nearly 7 years at WAAY-TV, Paul Dughi is changing assignments. He will be working with me on the corporate level on a number of special projects. He will remain based in Huntsville.

I think that one of the best ways to describe Paul is that he loves to innovate. During his tenure, WAAY-TV has originated full length digital broadcasts, launched and expanded multiple newscasts, experimented with multiple digital verticals, and most recently launched a daily Spanish newscast.

Starting Monday, the VP/GM of WAAY-TV will be a veteran broadcaster and General Manager, Mike Wright, and I'll be sending you more information about Mike in a separate note.
