All—

I'm happy to announce that Anna Roberts is being promoted to Executive Producer of Digital Content.
Anna has been an important and trusted part of the digital team for 12 years, both with WGN and CLTV.
In that time, she has learned what it takes to build and maintain a successful digital strategy, and how to engage our audience on our website and on social media.
Anna has great ideas for leading the department into the future, while building off of several consecutive months of record numbers (no pressure, Anna).

The transition will happen quickly.
Elyse's last day with WGN will be this Friday, before she embarks on the next stage of her career with News Nation.
Anna will hit the ground running immediately.

Please join me in congratulating both on their new roles!
-Dom
