

# Become a Wildlife Warrior & EARN YOUR CERTIFICATE!

Children will have the opportunity to participate in the conservation efforts that go on, plus get either a Bronze, Silver or Gold Certificate depending on how well they did.

## Top Secret Security Ops

Find out how our highly trained rangers help protect Loisaba's wildlife by joining them on a short patrol, visiting the top-secret security ops room (where you can also see the GPS movements of some collared wildlife such as Felix the lion!) and meeting our pilot for a guided tour of our plane.

## 'Hide & Seek' with the sniffer dogs

Meet our anti-poaching canine unit! We have two tracker dogs - Memusi and Nanyokie - and five handlers, who all contribute towards anti-poaching and the safety and security of the conservancy. The dogs are sniffer dogs rather than attack dogs and are very friendly. Join the team and test the dogs' sense of smell as you try and hide in the bush - and see if they can find you!

## Learn from the best Conservation Experts

Join our expert Guides and learn the signs of the wild, identify plants and basic survival, as you take a short 'bush' walk around the camp

## Junior Guide Training

Meet our researchers in our Conservation Centre and learn about the importance of all wildlife species in the 'web of life'.

## Recycling and Waste Management Fundi

Find out what it takes to recycle and keep the environment safe, from reusing water in the vegetable garden, making sure we keep our carbon footprint to a minimum by eliminating plastic and so much more. Help the environment and find creative ways to re-purpose waste that you can try at home!

## Tech in the Wild

Help contribute towards our wildlife monitoring and research projects, by recording sightings of elephants, leopards, lions, reticulated giraffes, Grevy's zebras, cheetahs and wild dogs on your game drives!
