

THE WHY

And the what

A Sensory Path...

Is a colorful, creative, and playful way for kids to build sensory pathways. They build connections in the brain that are responsible for sight, touch, sound, etc. which enable kids to complete complex, multi-stage tasks.

WHAT ARE... ...the kids saying?

It helps me get my wiggles out

I can refocus on what my task is after a quick break.

It's fun

It's like gym class but then my heart gets smaller

...the teachers saying?

- allows students to reset mentally
- kids gravitate towards the path when they are given an opportunity a break
- balance in the calmness and movement of pieces

Sensory Paths in Schools

A Collaborative Effort in
Finding ways to reach all
learners all day!

Stephanie Kotta (Kindergarten Teacher)
Miranda Hoheisel (SPED Teacher)

Students Matter...

No matter where they come from, what baggage they have, what comes easy or hard to them.

Is...Is Not

A sensory path is:

- Sensory play
- Play designed to stimulate and improve child's senses.
- Whole body & all senses

A Sensory Path is Not:

- A brain break
- A Classroom Management Solution
- A "behavior" solution

Our Steps

- Research
- Order and Place In Paths in place
- Train and Teach Colleagues (teachers & paras alike – ALL STAFF)
- ALL STAFF participate in at least ONE path

Opportunities We Provide

- **Large sensory path that focuses on each sense that we use to function (available to use at all grade levels)**
- **Hallway Sensory Options on the floor for 1st and 2nd graders , as well as being accessible for kindergarteners.**
- **Classroom "mini" sensory paths for wall/floor in all PreK, Early Childhood Special Education (hallway option), and ALL Kindergarten Rooms**
- **A music-themed sensory path for the music hallway to be used by the elementary and middle school classrooms**
- **Removable Sensory Mat for grade 3 and 4 hallway**
- **Mirror Me Sensory Game for grades 3 and 4 hallway**
