

PICKAWAY COUNTY – THE CROSSROADS FOR BUSINESS CONNECTIONS

**For Immediate Release:**  
**Stacey A. Sark**

**Circleville, Ohio-** On October 14, 2016 Wyngate Senior Living Community hosted the Grand Opening of their 78-unit, multi-million dollar development by Chancellor Health Partners. Pickaway Progress Partnership (P3) was instrumental in assisting Chancellor Health Partners and the City of Circleville with this project. We have also been working with Chancellor Health, Ohio Means Jobs- Pickaway County, Pickaway Ross Career & Technical School, and Ohio Christian University on a pilot training program to fill approximately 45-50 employees.

In just less than a year since breaking ground last fall, construction has been completed, staff has been hired, and new residents settled into the beautiful new Wyngate community. Located on State Route 188 across from the Mary Virginia Crites Hannon Park, the facility offers assisted living, memory care and independent living. According to their Residence Manager, Donette Burns, "We pride ourselves in providing great care while maintaining a very homelike atmosphere. We let each of our residents know that they don't live in our community, we work in their home."

A key feature to this particular senior living facility is the partnership with Berger Health System. This partnership has allowed for Berger Health System to house a medical office on campus and provide the residents with primary and occupational therapy services.

For more information, visit their website at [www.wyngatecircleville.com](http://www.wyngatecircleville.com) or call 740-474-1411.
