**McLaren Northern Michigan
Welcomes New Endocrinology Provider**

McLaren Northern Michigan is pleased to welcome Christina Donley, Board Certified Family Nurse Practitioner, to the Endocrinology/Diabetes and Nutritional Counseling Center team.

Christina received her Master of Science in Nursing from Michigan State University in 2001. Before coming to McLaren Northern Michigan, Christina worked in an OB/Gyn private practice and in primary care for a rural community health center in Muskegon, MI. As a certified nurse educator, Christina was a nursing faculty member for 17 years, as well as the nursing program director, at Muskegon Community College.

“My favorite part of providing care is developing a trusting relationship with my patients and working together to improve their level of health and wellness. It’s a great feeling to share in patients joy as they reach their health goals and learn to better manage their medical conditions,” stated Christina.

A west Michigan native, Christina remembers frequently visiting northern Michigan as a child camping and Petoskey stone hunting. As an adult she often vacationed in the area with her husband and three daughters, boating in the summer and skiing in the winter. “I’ve always loved the beauty of northern Michigan. It’s been a favorite area for our entire family and I’m excited to now live and provide medical care for its community members,” expressed Christina.

“I chose McLaren Northern Michigan because it has an excellent reputation for providing care and an environment of collaboration and teamwork,” said Christina. “I believe we have a strong team of dedicated professionals in our endocrinology practice that help our patients with their medical disorders.”
