

Online Sign-up Instructions

Thank you for signing up to volunteer with Habitat for Humanity! We kindly request that all volunteers register online in advance of your build day. Signing up online helps Habitat to gather information about each volunteer's skill level and interests and helps the construction team prepare tasks accordingly. It also helps the Volunteer Coordinator with data entry since each volunteer enters their own information. By completing this simple step, you will make us more prepared for your build day and hopefully that translates into a great experience!

1. [Click here to register!](#) Or go to www.habitatvailvalley.org/volunteer and click this button: A circular button with a white hand icon inside, followed by the word "VOLUNTEER" in white capital letters on a red background.
2. View the calendar of available volunteer dates.
3. Select the date you want, register and sign up for that day.

(If you are a part of a group, please make sure to select your Team when you register and also sign up for your team's shift.)

Please make sure you register AND sign up for your build day!

Thank you for supporting Habitat for Humanity!
