

Spotlight **SteamMaster** **Restoration & Cleaning**

A Vail Valley Original, Since 1978

SteamMaster has been part of the fabric of the Vail Valley for over 47 years, responding to everything from burst pipes in the middle of the night to polishing a marble floor before a real estate showing. Our Corporate World Headquarters is just minutes away in Minturn. SteamMaster is not a franchise or a fly-by-night outfit—it's locally owned and operated, with a long-standing reputation for expert service and ethical leadership.

We're honored to be the recipient of the BBB Torch Award for Ethics, and to be named Business of the Year by both the Vail Valley Partnership and the Eagle Chamber of Commerce.

Meet the Team Behind the Trust

Today, SteamMaster is led by Raj Manickam and Matt Monica. With 20 and 38 years at the company respectively, Raj and Matt bring heart, technical know-how, and a shared passion for excellence to every project—alongside a dedicated team of 26 employees.

For decades, they've been entrusted with the care of some of the valley's most exquisite homes.

"People trust us with their homes—and that trust is everything," says Matt. "We work hard to earn it, every single time."

From Emergency Calls to Fine Surface Care

SteamMaster's service menu is both broad and highly specialized. When disaster strikes—whether it's water, mold, or fire damage—their 24/7 Emergency Response Team is ready to mobilize with cutting-edge equipment and experienced technicians.

SteamMaster's custom-built, three-story facility in Minturn also houses four apartments with nine bedrooms. This serves as a staffed hub for rapid emergency response—ensuring help is always just minutes away.

Serving Vail, Breckenridge, Aspen & Surrounding Mountain Resort Communities

From Emergency Calls to Fine Surface Care

SteamMaster is just as well-known for restoring beauty and protecting the long-term value of a home's most important surfaces:

- **Water damage extraction & structural drying**
- **Mold remediation & indoor air quality solutions**
- **Fire & smoke damage restoration**
- **Stone cleaning, honing, polishing, and sealing (granite, marble, quartzite, slate, flagstone & more)**
- **Carpet, upholstery & oriental rug cleaning**
- **Rodent cleanup, crawl space repair, disinfecting & odor removal**
- **Graffiti, hydraulic spills, and even mudslide cleanup**

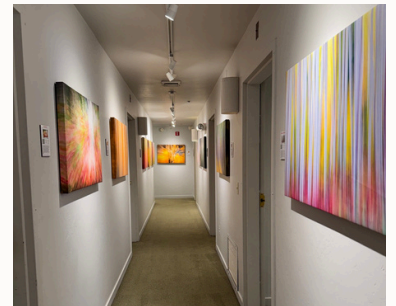

Not Just Technicians—Neighbors Who Care

What makes SteamMaster different isn't just the gear or certifications (though they have plenty). It's the way they show up. Raj and Matt are deeply rooted in the local community—supporting nonprofit work, sponsoring events, and even providing employee housing to retain top talent in this competitive resort labor market.

“There's something special about living and working here,” says Raj. “We're not just a service provider—we're your neighbors.”

A Gallery Upstairs—A Reflection of Passion and Perspective

Another unique feature of SteamMaster's building is on the third floor: the Allingoodlight Gallery, an intimate, thoughtfully lit space showcasing the fine art photography of Raj Manickam. Open five days a week during business hours, the gallery is open to anyone—clients, guests, or curious passersby—who want to take a stroll upstairs and enjoy a peaceful moment surrounded by visual storytelling.

The gallery features rotating exhibitions. If Raj is on-site, he's always happy to offer a private tour and share the stories behind the work.

Want to Get to Know Them? Just Ask Around.

With glowing 5-star reviews and referrals from local brokers, property managers, and homeowners, SteamMaster has earned its place as a trusted name. Curious whether they can handle your particular challenge—big or small? Just give them a call. Chances are, they've seen it, cleaned it, and fixed it.
