Courtesy/Etiquette

Consider your audience

Only send emails that subscribers of the list will find useful. Please refrain from sending personalized emails, as these are distributed to hundreds of people. If you choose to reply to the sender, ONLY reply to the sender.

Do not spam your fellow subscribers. Follow the guidelines set by the VMLS for how many emails per topic can be sent. Do not abuse the system.

Do not send excessively large photos, large number of photos or large media files. Suggest sending one to two appropriately sized photos or links to media as all property information is available in the MLS.

Check the "TO" field

Prior to sending, make sure the email address is correct, and that you are only replying to the sender if you choose to reply to a sender's email. ALWAYS verify the email address of the list or recipient.

Language

Subscribers may not use language or send content that is unlawful, abusive, defamatory, obscene, or otherwise unprofessional. Subscribers must abide by Fair Housing and Antitrust in emails.

Copyright

Subscribers may not send information or material that is protected by copyright. This includes logos, photos, or words that would infringe on property rights without permission of the owners.
