4 WAYS YOU CAN PREPARE

1. Begin reviewing your contacts and saved searches, and ensure all information is accurate. The more updated and "cleaned-up" your data is now, the easier it will be when you gain access to the new system.
2. Touch base with your clients and ask if their contact information needs to be updated, or if their home search parameters have changed.
3. Check out a few "How To" videos at the Flexmls site flexmls.com/flexmls-academy.
4. Watch for emails from your VMLS Director, Mike Fox. Mike will keep members updated on the process and share helpful insights on the new platform.
