Strategic Response				
Program	Funder	Amount	Description	Deadline
<a href="#">Emergency Response Grant Programme: COVID-19</a>	Internet Society Foundation	\$500,000	<p>For projects that utilize the Internet to improve lives during or in response to an emergency situation. In 2020, the Foundation’s focus will be on projects that respond to the COVID-19 pandemic, both during the immediate period of the crisis but also looking ahead at responses to the inevitable “second wave” later this year/into 2021.</p> <p>The Foundation is committed to working with organizations that take known Internet-based technical solutions and apply them to COVID-19 responses or are pivoting from their “regular” activities to create new projects or reworked technical solutions that respond to the pandemic.</p> <p>Examples of projects that may be considered for funding:</p> <ul style="list-style-type: none"> <li>- Applications that accelerate and coordinate humanitarian response;</li> <li>- Services that promote and enable distance learning for students;</li> <li>- Research and documentation on: censorship of COVID-19 public health and safety information; or the increasing use of surveillance technology in the name of public health or safety;</li> <li>- Circumvention solutions that provide access to blocked public health and safety information or directly respond to increased COVID-19-related censorship;</li> <li>- Platforms that establish new pathways to alternative livelihoods</li> </ul> <p>Indexes that demonstrate urban and/or rural pandemic preparedness.</p>	5/17/2020

Strategic Response				
Program	Funder	Amount	Description	Deadline
<a href="#">COVID-19 Related Special Grant Cycle</a>	Spencer Foundation	\$50,000	For education research projects that will contribute to understanding the rapid shifts in education in this time of crisis and change. Particular interest in two primary categories of projects: 1) studies that aim to understand and disrupt the reproduction and deepening of educational inequality caused by the COVID-19 crisis; 2) research projects that are working to re-imagine educational opportunities in these times. There will be two more rounds, with deadlines of May 18 and June 8.	5/18/2020 6/8/2020
<a href="#">Research Continuity Grants</a>	Paul Mellon Centre for Studies in British Art	\$12,600	For institutions such as galleries or museums, which are based within the arts and cultural sector and which have been affected financially by the COVID-19 crisis. The program is designed to support scholarly research and the dissemination of knowledge in the field of British art history. Applicants must therefore demonstrate that their institution is actively involved in pursuing a scholarly or curatorial project on British art or architecture of any period, which might take the form of an exhibition, cataloguing project, research project or publication. This program will provide quickly released funding for both individuals and institutions, and is intended to sustain research, writing and thinking on British art and architecture for scholarly and curatorial communities. Research Continuity Grants are designed to enable institutions to continue planning and conducting curatorial and scholarly research projects during the coming year, on topics drawn from the history of British art and architecture. Funds will be released to grantees in early June.	5/19/2020

Strategic Response				
Program	Funder	Amount	Description	Deadline
<a href="#">Continuity in Care for Patients with Metastatic Breast Cancer</a>	Pfizer	\$250,000	To support nursing associations, cancer centers, hospitals or healthcare systems so that they may improve their systems-of-care for patients with metastatic breast cancer who receive oral cancer medicines during the COVID-19 pandemic. Funds are intended to be used for initiatives that support patient adherence to treatment and reduce risk of patient exposure to COVID-19, such as home health services that allow licensed nurses to visit patients with metastatic breast cancer for potential blood draws and/or other monitoring the patient may require. The funds can be used for supplemental salary support, transportation costs, and other related items (not otherwise reimbursable by payors).	5/21/2020
<a href="#">Supporting Engagement in and Dissemination of PCOR/CER in the Context of COVID-19</a>	Patient-Centered Outcomes Research Institute (PCORI)		For projects that help communities increase their ability to participate across all phases of patient-centered outcomes research/comparative clinical effectiveness research (PCOR/CER) while responding to societal changes resulting from the COVID-19 pandemic. Also for organizations and community groups to actively disseminate PCORI-funded research results during the pandemic. Applicants are invited to explore virtual or distanced methods of engagement, and to generate new questions and evidence needs across stakeholder groups.	5/22/2020

Strategic Response				
Program	Funder	Amount	Description	Deadline
<a href="#">COVID-19 Targeted Funding</a>	Patient-Centered Outcomes Research Institute (PCORI)	\$5,000,000	<p>For innovative, high-impact studies of patient-engaged and patient-centered comparative clinical effectiveness research. The objectives of this announcement are to (1) strengthen the understanding of different approaches to mitigate the impact of COVID-19 on individuals, communities, healthcare providers, and healthcare systems; and (2) provide evidence to inform clinical and public health responses, decision making, and planning.</p> <p>There are three priority areas:</p> <ul style="list-style-type: none"> <li>- Adaptations to healthcare delivery;</li> <li>- Impact of COVID-19 on vulnerable populations;</li> <li>- Impact of COVID-19 on healthcare workforce well-being, management, and training.</li> </ul>	5/26/2020
<a href="#">COVID-19 and Emerging Respiratory Viruses Research Award</a>	American Lung Association	\$100,000	<p>For proposals to advance research against emerging respiratory pathogens like SARS-CoV-2. All research must directly be related to COVID-19 or other viral respiratory threats that may arise in the future.</p> <p>The Lung Association is interested in applications that address the following types of clinical, basic, translational, and population health questions:</p> <ul style="list-style-type: none"> <li>- A new understanding of the basic biology of respiratory viruses that could lead to better treatment and prevention;</li> <li>- Development of novel therapeutics and vaccines;</li> <li>- Understanding host factors that alter response to these infections;</li> <li>- Understanding individual, regional, or social factors increasing or decreasing community spread of COVID-19 and other respiratory viruses;</li> <li>- Case tracking and epidemiological approaches to understanding COVID-19 and other respiratory viruses.</li> </ul>	5/30/2020

Strategic Response				
Program	Funder	Amount	Description	Deadline
<a href="#">Development of Clinical Quality Measures to Improve Diagnosis</a>	Gordon and Betty Moore Foundation	\$500,000	For the development of innovative clinical quality measures that promote excellence in diagnosis of three categories of disease – acute vascular events, infections and cancer. There must be, at minimum, a proposed measure of diagnostic performance based on obtainable evidence in one or more of the three priority categories listed above. The expected work requires two interlinked activities: 1) development of the rationale for a measure and 2) operationalizing the measure into an algorithm that can undergo pilot (or proof-of-concept) testing. Prior work in measure development is useful but not required.	6/30/2020

## Limited Application

Program	Funder	Amount	Description	Deadlines
<a href="#">Biomedical grants</a>	Edward Mallinckrodt, Jr. Foundation	\$180,000	<p>For early-career investigators doing basic biomedical research that has the potential to significantly advance the understanding, diagnosis or treatment of disease. Current R01 recipients not eligible. Requires endorsement of Geisel dean or other senior faculty member(s). Must be in first to fourth year of a tenure-track position.</p> <p><b>LIMITED APPLICATION -- INTERNAL SUBMISSION REQUIRED</b></p> <p>Dartmouth may nominate one candidate. To apply for this opportunity, email the following to <a href="mailto:limitedfunding@dartmouth.edu">limitedfunding@dartmouth.edu</a>: one-page description of your project idea; total amount of your funding request; current CV. Use "Mallinckrodt grant" as the email subject line.</p>	<p><b>Internal deadline:</b> 6/5/2020</p> <p>External deadline: 8/1/2020</p>

**Cross-cutting/Multi-disciplinary**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Stories of Tropical Rainforests</a>	National Geographic Society	\$70,000	For storytelling projects that highlight ecosystem-scale stories and solutions-oriented attempts to mitigate or reverse human impacts.  Journalists and storytellers (photo, film, text, maps, data visualization) are allowed to apply, as are social media influencers and content creators looking to highlight traditional and indigenous knowledge on their channels and indigenous youth aiming to expand their storytelling on YouTube and Instagram. Priority for this RFP will be given to projects led by journalists and storytellers from countries within the relevant regions (Amazon River basin, Congo River basin, and rainforests in southeast Asia). Projects that benefit local communities or incorporate local voices are also strongly encouraged, as are local-language outputs.	7/1/2020
<a href="#">AI for Earth Innovation</a>	National Geographic Society  Microsoft	\$100,000	To support novel projects that create and deploy AI tools to improve the way we monitor, model, understand, and ultimately manage Earth’s natural resources for a more sustainable future. The grants will support projects that use cloud computing to create and deploy open-source models and algorithms that make key analytical processes more efficient in the field; and that will build tools such as applications, application programming interfaces or packages to be shared. Microsoft will help the successful applicants make their models and tools available for use by other environmental researchers and innovators.	7/22/2020
<a href="#">Humboldt Research Award</a>	Alexander von Humboldt Foundation	\$65,000	For internationally recognized academics from outside of Germany, regardless of discipline or nationality, to conduct 6–12 months of research in Germany (can be divided into blocks). Nomination of women is particularly encouraged. Must be nominated by a academic at a German university or research institution, or jointly by a Humboldt Foundation award winner working outside Germany and a colleague working in Germany.	rolling

**Cross-cutting/Multi-disciplinary**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Pioneering Ideas</a>	Robert Wood Johnson Foundation		For new and unconventional perspectives and approaches to building a Culture of Health. Applications invited from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. Applications accepted on a rolling basis.	rolling
<a href="#">Responsive Grants in Higher Education</a>	Henry Luce Foundation		<p>For team-based projects or institutional initiatives aimed at faculty and doctoral students in the humanities and qualitative social sciences. Also for projects to support women or increase the number of women in certain STEM fields. Applications accepted on a rolling basis.</p> <p>Solicited topics include:</p> <ul style="list-style-type: none"> <li>- Encouraging new approaches to the dissemination of research outside of the academy;</li> <li>- Facilitating collaboration, dialogue, or another kind of exchange or partnership between scholars and practitioners or policymakers;</li> <li>- Facilitating and nurturing trans-disciplinary and trans-national research and training;</li> <li>- Supporting innovation in doctoral education;</li> <li>- Supporting women in the professoriate and administration, especially in the physical sciences, engineering, and mathematics;</li> <li>- International dialogue and collaboration about higher education goals and strategies.</li> </ul>	rolling

**Arts & Humanities**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Research-to-Teaching Grants</a>	Society of Architectural Historians	\$4,000	To present lectures on any area of specialty focusing on global architecture and urbanism	rolling
<a href="#">Humanities Program</a>	Gladys Kriebel Delmas Foundation	\$60,000	Programs in the following areas are eligible: history; archaeology; literature; languages, both classical and modern; philosophy; ethics; comparative religion; the history, criticism, and theory of the arts; and social sciences which share the content and methods of humanistic disciplines. Primary (but not exclusive) focus is European and American history and letters, broadly defined. Applications accepted on a rolling deadline.	rolling

**Social Sciences & Business/Entrepreneurship**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Workshop Grants</a>	Wenner-Gren Foundation	\$5,000	AMENDED Applications for the June 2020 deadline must be for virtual workshops rather than face-to-face meetings. To foster the creation of an international community of research scholars in anthropology and advance significant and innovative anthropological research.	6/1/2020
<a href="#">Young Scholars Program</a>	Foundation for Child Development	\$225,000	For policy- and practice-relevant research on how the knowledge, skills, and dispositions of the early care and education workforce can support young children’s early learning and development across the birth-through-age-eight continuum. Open to a variety of disciplines and methodological approaches. Applications encouraged from members of underrepresented groups that have historically experienced economic instability and social exclusion. Eligibility: must have received doctoral degree within one to eight years of application submission; ten years for physician applicants.	6/30/2020
<a href="#">Institutional Grants</a>	Tinker Foundation		For the creation of effective policy changes to improve the lives of Latin Americans (not U.S. policy towards Latin America). Projects should have a strong public policy component, offer innovative solutions to problems facing these regions, and incorporate new mechanisms for addressing these programmatic areas. Activities may include, but are not restricted to, research projects, workshops and conferences related to the Foundation’s areas of interest: Democratic Governance; Education; and Sustainable Resource Management. There are two annual deadlines: January 31 and July 31.	7/31/2020
<a href="#">Responsive Grants in Public Policy</a>	Henry Luce Foundation		For public-policy projects. Preference for development of public leadership, such as: orientation programs for new members of Congress; the study of the Presidency; analysis of the judicial system; and best practices in and knowledge about philanthropy. Applications accepted on a rolling basis.	rolling

Physical Sciences, Mathematics & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">For Women in Science International Awards</a>	L'Oreal	\$109,000	Awards will be made to five outstanding female researchers in the physical sciences, mathematics or computer science from around the world. One awardee working in North America will be selected. No self-nominations.	5/31/2020
<a href="#">Emergent Phenomena in Quantum Systems Initiative - Flexible Funding Grants</a>	Gordon and Betty Moore Foundation	\$2,000,000	To improve experimental capabilities at leading institutions and support projects with a potential to make breakthroughs in quantum materials. Flexible Funding grants will be in the range of \$300,000 to \$2,000,000.  The Flexible Funding program has two tracks: - Equipment Development: for the development of sophisticated and sometimes one-of-a-kind instrumentation at institutions with active research programs in quantum materials. - Rapid-Response Grants: for projects with exceptionally high-potential impact. These projects may include experimental tests of novel important theoretical concepts and innovative, unconventional research endeavors that are unlikely to be supported through traditional funding channels due to their high-risk nature.	5/31/2020
<a href="#">Create the Future Design Contest</a>	Tech Briefs Media Group	\$20,000	For engineering innovation in these categories: - Aerospace & Defense; - Automotive/Transportation; - Consumer Products; - Electronics/Sensors/IoT; - Manufacturing/Automation/Robotics; - Medical; - Sustainable Technologies/Future Energy.	7/1/2020

## Physical Sciences, Mathematics & Engineering

Program	Funder	Amount	Description	Deadline
<a href="#">Community Prototype Fund</a>	Open Technology Fund	\$6,000	For the rapid development of innovative, viable and open Internet freedom technology prototypes that serve the immediate needs of the Internet freedom and human rights communities. Technologists apply to build tools that meet needs identified by activists, journalists, and human rights defenders. Applicants can also apply for funding for their own ideas. Concept notes accepted on a rolling basis.	rolling

**Biological Sciences, Medicine & Engineering**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Research Grant on Disparities in Lung Cancer</a>	Lung Cancer Research Foundation	\$150,000	For research projects with a focus on overcoming disparities in lung cancer. Topics of interest include but are not limited to the following: - Gender disparities in lung cancer burden; - Causes and risk factors for lung cancer among never smokers; - Influence of social and biological risk factors on lung cancer outcomes, access to and use of care, and quality of care; - Genetic and gene-environment interactions; - Interactions and contributions of multiple factors (e.g. smoking, genetics, environment, societal factors) to disparities in lung cancer outcomes.; - Contribution of healthcare access and quality to disparities in outcomes; - Disparities related to other factors such as geography, socioeconomic status, and age.	5/29/2020
<a href="#">Medical Research Program</a>	T.E.A.L. (Tell Every Amazing Lady)	\$40,000	For ovarian cancer research.	5/31/2020
<a href="#">Alliance Cancer Control Program Junior Faculty Award</a>	Alliance for Clinical Trials in Oncology Foundation	\$200,000	To facilitate ongoing training and assist junior faculty and post-docs in establishing a competitive research profile early in their career. Junior faculty may have either an instructor or assistant professor position within their institution and must be within 5 years of their first faculty appointment, and post-doctoral fellows must maintain their fellowship for the entire one-year award period.	6/1/2020
<a href="#">MTF Research Award (over \$30,000)</a>	Massage Therapy Foundation	\$300,000	For research which contributes significantly and directly to the knowledge of massage therapy and/or its application. Basic, applied, and translational research studies which investigate massage therapy as a wellness, medical, or health/mental health treatment and/or prevention intervention are supported. Pre-applications are accepted on two annual deadlines: July 1 and December 1.	7/1/2020

## Biological Sciences, Medicine & Engineering

Program	Funder	Amount	Description	Deadline
<a href="#">Investigator Award</a>	Rheumatology Research Foundation	\$375,000	The purpose is to provide support for basic science, translational, and clinical investigators engaged in research relevant to the rheumatic diseases for the period between the completion of post-doctorate fellowship training and establishment as an independent investigator. Early- and mid-career physicians and health professionals.	7/1/2020
<a href="#">Linnemeier Spirit of Interventional Cardiology Young Investigator Award</a>	Cardiovascular Research Foundation	\$10,000	For excellence in interventional cardiovascular medicine (interventional cardiology, endovascular medicine, structural heart disease, pathology, etc.). Candidates for this award must be less than 40 years of age as of September 23, 2020.	7/1/2020
<a href="#">Damon Runyon-Rachleff Innovation Award</a>	Damon Runyon Cancer Research Foundation	\$400,000	<p>For early-career researchers with high-risk/high-reward ideas that have the potential to significantly impact prevention, diagnosis or treatment of cancer. For projects that lack sufficient preliminary data to obtain traditional funding. Basic and translational/clinical projects will be considered. Applications will be accepted from all scientific disciplines provided that the proposed research meets the selection criteria. Applicants with a background in multiple disciplines are especially encouraged to apply.</p> <p>Eligibility:</p> <ul style="list-style-type: none"> <li>- Tenure-track Assistant Professors within the first five years of obtaining their initial Assistant Professor position (Cut-off date: July 1, 2015);</li> <li>- Clinical Instructors and Senior Clinical Fellows (in the final year of their subspecialty training) holding an MD who are pursuing a period of independent research before taking a tenure-track faculty position;</li> <li>- Distinguished Fellows with an exceptional record of research accomplishment identified by their institution to pursue an independent research program and who have dedicated laboratory space.</li> </ul>	7/1/2020

**Biological Sciences, Medicine & Engineering**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">George Ferry Young Investigator Development Award</a>	NASPGHAN Foundation for Children's Digestive Health and Nutrition	\$150,000	To support research activities by junior faculty who have the potential for evolution to an independent research career in pediatric gastroenterology, hepatology or nutrition. Supports projects in the clinical or basic sciences to study the diseases of the gastrointestinal tract, liver or pancreas and nutritional disorders in children.  Must be a NASPGHAN member for at least two years. Have or will complete pediatric gastroenterology or basic post-doctoral training within 5 years of application. Full-time faculty position below the rank of Associate Professor. No current or previous NIH RO1, PO1 (or similar) or an NIH mentored grant such as a K08, K23, or equivalent Canadian or Mexican grant mechanisms.	7/1/2020
<a href="#">Mid-Level Career Development Award</a>	NASPGHAN Foundation for Children's Digestive Health and Nutrition	\$100,000	For NASPGHAN members who are pursuing research in pediatric gastroenterology, hepatology and nutrition and are at a mid-level in their career. Must have held a faculty appointment for at least six years but not have reached professor level.	7/1/2020
<a href="#">Takeda Pharmaceutical Products, Inc. Research Innovation Award</a>	NASPGHAN Foundation for Children's Digestive Health and Nutrition	\$150,000	For innovative, high-impact research in pediatric gastroenterology, hepatology and nutrition. The intent of this research award is to stimulate scientific inquiry in an area that is exceptionally innovative and has the potential to impact the field in a highly novel manner. Faculty at any level may apply.	7/1/2020
<a href="#">Nestle Nutrition Research Young Investigator Development Award</a>	NASPGHAN Foundation for Children's Digestive Health and Nutrition	\$150,000	For clinical, quality improvement, translational or basic science research project relating to nutrition in infancy, childhood or adolescence  Must be a NASPGHAN member for at least two years. Have or will complete pediatric gastroenterology or basic post-doctoral training within 5 years of application. Full-time faculty position below the rank of Associate Professor. No current or previous NIH RO1, PO1 (or similar) or an NIH mentored grant such as a K08, K23, or equivalent Canadian or Mexican grant mechanisms.	7/1/2020

Biological Sciences, Medicine & Engineering				
Program	Funder	Amount	Description	Deadline
<a href="#">AstraZeneca Research Award for Disorders of the Upper Gastrointestinal Tract</a>	NASPGHAN Foundation for Children's Digestive Health and Nutrition	\$150,000	For studies focused on the epidemiology, pathogenesis, natural history, genetics, diagnosis and management of peptic disorders and other diseases of the upper gastrointestinal tract in children. Diseases that are relevant to this announcement include, but are not limited to gastroesophageal reflux, reflux esophagitis, eosinophilic (allergic) esophagitis, motility disorders of the upper gastrointestinal tract, Helicobacter pylori infection with or without ulceration, non-ulcer dyspepsia, and non-bacterial ulcer diseases. Applicants at any career level may apply.	7/1/2020
<a href="#">Science &amp; SciLifeLab Prize for Young Scientists</a>	SciLifeLab AAAS	\$30,000	For outstanding life science research by people who earned a doctoral degree in the previous two years. Categories: Cell and Molecular Biology; Genomics, Proteomics and Systems Biology; Ecology and Environment; Molecular Medicine. Must have received Ph.D. between January 1, 2018 and December 31, 2019.	7/15/2020
<a href="#">Award in Inflammatory Bowel Disease</a>	Arena Pharmaceuticals	\$50,000	For innovative solutions that address the unmet needs of those impacted by inflammatory bowel disease. Individual organizations may apply for up to \$25,000. Collaborations including at least two organizations may apply for up to \$50,000.	8/31/2020
<a href="#">Kite External Research Program</a>	Gilead Sciences		For cell-therapy investigations focused on: <ul style="list-style-type: none"> <li>- Novel combinations</li> <li>- Side effect/safety management combinations</li> <li>- Orphan B-cell malignancies (e.g., Hairy cell leukemia, Burkitt lymphoma, PTLD)</li> <li>- Earlier lines of therapy in high risk lymphoma patients (e.g., high FLIPI/GELF in FL)</li> <li>- B-cell mediated autoimmune disease</li> <li>- Novel conditioning regimens</li> <li>- Real world data</li> <li>- Translational studies characterizing mechanisms of treatment failure, including relapse, pathogenesis of treatment related toxicities, and approaches to support outpatient treatment.</li> </ul>	rolling

**Biological Sciences, Medicine & Engineering**

<b>Program</b>	<b>Funder</b>	<b>Amount</b>	<b>Description</b>	<b>Deadline</b>
<a href="#">Evidence for Action: Investigator-Initiated Research to Build a Culture of Health</a>	Robert Wood Johnson Foundation		<p>For research that expands the evidence needed to build a Culture of Health, broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. Proposals should improve health outcomes and reduce inequities; establish generalizable best practices and develop and validate key measures. Applications accepted on a rolling basis.</p> <p>Areas of interest:</p> <ul style="list-style-type: none"> <li>- Making Health a Shared Value</li> <li>- Fostering Cross-Sector Collaboration</li> <li>- Creating Healthier, More Equitable Communities</li> <li>- Strengthening Integration of Health Services and Systems</li> </ul>	rolling
<a href="#">Seed Grant Program</a>	Society to Improve Diagnosis in Medicine	\$50,000	<p>DEADLINE EXTENDED INDEFINITELY</p> <p>For care-delivery systems to conduct diagnostic quality and safety improvement projects. Grantees will be asked to identify opportunities for improvement and potential interventions, evolve the interventions through small tests of change to increase their effectiveness, build the level of evidence supporting the intervention’s effectiveness, and, where appropriate, increase impact through further opportunities to “scale and spread” utilization. There will be three award cycles.</p>	rolling

## Graduate/Postdoctoral

Program	Funder	Amount	Description	Deadline
<a href="#">Research Grant on Disparities in Lung Cancer</a>	Lung Cancer Research Foundation	\$150,000	For research projects with a focus on overcoming disparities in lung cancer. Topics of interest include but are not limited to the following: <ul style="list-style-type: none"> <li>- Gender disparities in lung cancer burden;</li> <li>- Causes and risk factors for lung cancer among never smokers;</li> <li>- Influence of social and biological risk factors on lung cancer outcomes, access to and use of care, and quality of care;</li> <li>- Genetic and gene-environment interactions;</li> <li>- Interactions and contributions of multiple factors (e.g. smoking, genetics, environment, societal factors) to disparities in lung cancer outcomes.;</li> <li>- Contribution of healthcare access and quality to disparities in outcomes;</li> <li>- Disparities related to other factors such as geography, socioeconomic status, and age.</li> </ul>	5/29/2020
<a href="#">Alliance Cancer Control Program Junior Faculty Award</a>	Alliance for Clinical Trials in Oncology Foundation	\$200,000	To facilitate ongoing training and assist junior faculty and post-docs in establishing a competitive research profile early in their career. Junior faculty may have either an instructor or assistant professor position within their institution and must be within 5 years of their first faculty appointment, and post-doctoral fellows must maintain their fellowship for the entire one-year award period.	6/1/2020
<a href="#">Biomedical Research Fellowship</a>	Helen Hay Whitney Foundation	\$175,500	For biological or medical researchers. One application per laboratory. Eligibility: No more than one year of postdoctoral research experience as of the deadline. Ph.D. (or D.Phil. or equivalent) received no more than two years before the deadline, or an M.D. degree no more than three years before the deadline.	6/15/2020

## Graduate/Postdoctoral

Program	Funder	Amount	Description	Deadline
<a href="#">Trainee Bridge Fund</a>	International Society for Research in Human Milk and Lactation  Family Larsson-Rosenquist Foundation	\$100,000	The Trainee Bridge Fund (TBF) aims to provide awardees with a bridge toward becoming an independent professional in a career focused on an aspect of human milk and lactation research that was outside the focus of an awardee’s doctoral program (or other academic program/training), OR to allow an awardee to move into the field of human milk and lactation, even if that was not the focus of the awardee’s doctoral program (or other academic program/training).	6/30/2020
<a href="#">Young Scholars Program</a>	Foundation for Child Development	\$225,000	For policy- and practice-relevant research on how the knowledge, skills, and dispositions of the early care and education workforce can support young children’s early learning and development across the birth-through-age-eight continuum. Open to a variety of disciplines and methodological approaches. Applications encouraged from members of underrepresented groups that have historically experienced economic instability and social exclusion. Eligibility: must have received doctoral degree within one to eight years of application submission; ten years for physician applicants.	6/30/2020

## Graduate/Postdoctoral

Program	Funder	Amount	Description	Deadline
<a href="#">Damon Runyon-Rachleff Innovation Award</a>	Damon Runyon Cancer Research Foundation	\$400,000	<p>For early-career researchers with high-risk/high-reward ideas that have the potential to significantly impact prevention, diagnosis or treatment of cancer. For projects that lack sufficient preliminary data to obtain traditional funding. Basic and translational/clinical projects will be considered. Applications will be accepted from all scientific disciplines provided that the proposed research meets the selection criteria. Applicants with a background in multiple disciplines are especially encouraged to apply.</p> <p>Eligibility:</p> <ul style="list-style-type: none"> <li>- Tenure-track Assistant Professors within the first five years of obtaining their initial Assistant Professor position (Cut-off date: July 1, 2015);</li> <li>- Clinical Instructors and Senior Clinical Fellows (in the final year of their subspecialty training) holding an MD who are pursuing a period of independent research before taking a tenure-track faculty position;</li> <li>- Distinguished Fellows with an exceptional record of research accomplishment identified by their institution to pursue an independent research program and who have dedicated laboratory space.</li> </ul>	7/1/2020
<a href="#">Scientist Development Award</a>	Rheumatology Research Foundation	\$225,000	Structured research training program for rheumatologists or health professionals in the field of rheumatology. For MD/DO, no more than five years from beginning of fellowship (or 6 years for pediatric rheumatologists). For PhD/DSc, no more than three years from terminal degree.	7/1/2020

Graduate/Postdoctoral				
Program	Funder	Amount	Description	Deadline
<a href="#">Research Grants and Fellowships</a>	Paralyzed Veterans of America	\$150,000	<p>Supports innovative research and fellowships that improve the lives of those with spinal cord injury and disease.</p> <p>Four programs:</p> <ol style="list-style-type: none"> <li>1) Basic Science. Laboratory research in the basic sciences;</li> <li>2) Clinical. Clinical and functional studies of the medical, psychosocial and economic effects, and interventions to alleviate these effects;</li> <li>3) Design and Development. Assistive technology, including improving identification, selection and utilization of devices;</li> <li>4) Fellowships. For postdoctoral scientists, clinicians and engineers to encourage training and specialization in the field of spinal cord research.</li> </ol> <p>Eligibility: Senior fellows are encouraged to apply as principal investigators. Post-doctoral individuals are eligible to apply for fellowship support within four years of receiving a Ph.D. or completing M.D. residency. Graduate students can participate in Foundation-related research and be paid from a Foundation award. However, graduate students cannot apply for a Foundation grant either as a fellow or as a principal investigator.</p>	7/1/2020
<a href="#">Investigator Award</a>	Rheumatology Research Foundation	\$375,000	The purpose is to provide support for basic science, translational, and clinical investigators engaged in research relevant to the rheumatic diseases for the period between the completion of post-doctorate fellowship training and establishment as an independent investigator. Early- and mid-career physicians and health professionals.	7/1/2020
