

## **Family Interventions Services (a division of Center for Family Services)**

FIS/CFS will continue to provide services to our families via telehealth (following the guidelines outlined by DCF). In addition, our staff are all working remotely. Effective March 27, 2020 at 5 pm our offices in both Morris and Sussex will be closed, but our administrative office in East Orange will remain open. We can continue to receive referrals and will continue to work with all our system partners. Our staff have cell phones and laptops to enable them to provide the same level of care.

- Morris/Sussex Mobile Response continues to providing crisis stabilization services, case management and implementation of in-home therapeutic services for children and their families. We are using a video and audio platform to connect and support with all our families. At this time, face to face sessions have been temporarily suspended. We are available 24/7, 365 days a week. Please contact Performacare at 1-877-652-7624.
- All DCP&P referrals should continue to be made through the local RDS's.
- In MorrisCounty, FCIU referrals should be sent to: Dahiana P. Grisales, LCSW at [dgrisales@fisnj.org](mailto:dgrisales@fisnj.org) with subject line: *Morris FCIU New Referral - (with date)*. FOP referrals should be sent to the same email with subject line: *Morris FOP New Referral*.
- In Sussex County, referrals for Promoting Success should be sent to: Kristen Lauber at [klauber@fisnj.org](mailto:klauber@fisnj.org) with subject line: *Sussex Promoting Success New Referral*.
- Outpatient Services can be reached at: 844-446-2299

**Please do not FAX any information to the Morris or Sussex offices as there will be no access to the building during this time.**

Please note that FIS is open for business - should you need to talk to someone or to learn how to manage anxiety during this unusual time - don't hesitate, we are here for you!
