## JOINT INFORMATION CENTER PRESS RELEASE - FOR IMMEDIATE RELEASE – July 8, 2020 DOUGLAS COUNTY COVID-19 RESPONSE TEAM - NOON CASE UPDATE

**Douglas County COVID-19 Test Results:** It is Wednesday, July 8, 2020, and as of 12:00 pm today, there is **ONE** new confirmed case of COVID-19, and two new presumptive cases in Douglas County since yesterday at noon. **The total number of cases (confirmed and presumptive) in Douglas County is now at 56\***. OHA expanded their reporting for COVID-19 case management to now include presumptive COVID-19 cases in their total case number. DPHN is reporting confirmed and presumptive cases and uses the OHA's definition of presumptive as having had close contact with a known, confirmed COVID-19 case, showing symptoms and not yet having a positive nasal swab/PCR test for COVID-19. Testing continues, as DPHN has been holding 2-3 clinics a week and hospitals, urgent cares and clinics continue to test. DPHN continues their epidemiologic investigations, identifying individuals who may have had close contact with individuals that have tested positive for COVID-19, advising and supporting quarantine and isolation. *\*Our daily update includes the total number of cases in Douglas County, which combines confirmed and presumptive cases. We provide a breakout of the confirmed and presumptive cases in the chart below. Please note there will be times when our total case number will not change when we report a new case, but our breakout for confirmed and presumptive cases will be updated.*
