According to Gallup, 83% of Jews believe that abortion should be legal in all or most cases, which has resulted in the loss of over 793,000 Jewish lives in the US since 1973, and over 2 million in the state of Israel since 1948.

The Jewish Pro-Life Foundation is a 501c3 educational non-profit that promotes lifesaving alternatives to abortion in the Jewish community by providing pro-life education and referring to Jewish friendly pregnancy care and adoption services. We also offer a post abortion healing program at no cost to any Jew who suffers after an abortion experience.

How did Judaism go from “Choose Life and Multiply” to abortion on demand through full term pregnancy and beyond? How did we go from being the first religion in human history to consider every human life as

sacred and to ban child sacrifice - to the world's leading religion in abortion advocacy and support? How did we get from the original rabbinical consensus that abortion is prohibited in Judaism with one specific exception for saving the mother's physical life in a breech birth crisis - to abortion for any reason at any time for a healthy child in a healthy mom in a modern era when destroying an unborn child to save the life of the mother is almost never necessary?

The Jewish Pro-Life Foundation answers these questions and many more in our power point entitled, Judaism: The Original Pro-Life Religion, which is available for download on our website. We explore our biblical and rabbinical pro-life traditions, and the science of growth and development of human beings in the womb. We take an honest look at the history of eugenics and

the use of systematic propaganda to dehumanize the Jew in and out of the womb, and how abortion is a useful tool for eliminating Jewish life in the name of compassion, healthcare, and civil rights.

We look at why Jews advocate for the defenseless and powerless everywhere but not for the most vulnerable and helpless humans within our midst - those in the womb -who feel pain as early as 10 weeks gestation, but who are given no pain medication before being starved, poisoned, burned, dismembered, or whose skull is punctured and crushed after partial delivery - or who are delivered perfect and alive for organ harvesting.

Why we don’t consider that Judaism prohibits desecrating the human body, but abortion destroys a human body, and the harvesting of baby parts for profit is not only

illegal but runs contrary to Jewish respect for the dead.

How we've become major financial contributors to Planned Parenthood, the abortion industry leader, whose billion dollar bottom line derives from exploiting vulnerable women, destroying innocent children, and corrupting naive minors into sexual lifestyles incompatible with Jewish teachings.

We question why many Jews support abortion legislation and services that end innocent life and devastate families instead of focusing our energies on building practical networks in our places of worship for at risk mothers, fathers and their unborn children. Why Hadassah performs abortions in their hospitals, and why our young Jewish adults are taught to emulate the anti-life ideology of Margaret Sanger, a self

described anti-semite and eugenicist - instead of taught to model America's early feminists who opposed abortion and saw it as the ultimate exploitation of women.

Are you facing unplanned or unwanted pregnancy and feeling pressured to abort? The Jewish Pro-Life Foundation has a waiting list of Jewish couples looking to adopt less than perfect Jewish babies or Jewish babies conceived in less than perfect circumstances. And our Jewish friendly pregnancy care referrals will provide you and your baby with all the help and support you need.

Many post abortive Jewish men and women, although counseled by friends, rabbis, and family that abortion is legal, convenient, healthcare and nothing to be ashamed of - nonetheless secretly grieve their lost children and suffer from a deep

spiritual disturbance and moral dilemma. We address the pain and personality disintegration after abortion by providing a safe environment through our healing program, Tikvat Rachel, which is based on Teshuvah and the promise of redemption in Judaism. We invite anyone to download the healing program from our online library and to call into our Thursday 9 pm EST support call to work through the challenging feelings that surface.

We want to thank Talkline communications for providing this radio opportunity. To make a financial contribution to help defray the costs of these radio spots, and to learn more about our work, or to become a Jewish pro-life ambassador, please visit our website at jewishprolifefoundation.org.
