Mark M. Hacket, E.I.T

Field Civil Site Engineer / Project Designer
And Municipal Plan Reviewer

Education: Villanova University, Villanova, PA (2019) Bachelor of Science in Civil Engineering

Summer Business Institute (2018)
Obtained Business Minor through intensive 10-week program

Professional Certification

Engineer-in-Training Pa Cert # ET028067 (2019)

Responsibilities and Experience: A quick learner, with a great attitude, and bringing (3) years of municipal experience, Mark immediately stepped in at Yerkes, to provide civil site inspections, ensuring compliance of civil/site improvements on land development projects, including stormwater management, erosion control, site grading, and municipal road paving programs.

Having served a variety of municipalities through his previous employers, Mark has reviewed municipal stormwater permit plans, subdivision and land development plans, as-built plans; stormwater and sanitary sewer infrastructure construction observation, as well as construction observation of multiple large residential developments and commercial properties; including reviewing cost estimates for construction escrow reduction. He has also served as a Zoning Officer for Sadsbury Township, Lancaster County, Pa., with his previous employer.
