

*If you've been a manager for more than five minutes
you know that people problems are the biggest problems, but now you can*

Hire With Confidence, Fire Without Fear, Tame Toxic Employees and Put Your Team on the Fast Track to Record-Shattering Success

*If you're trying to manage people without the skills I'll give you in this seminar,
you're risking your career, your health and your sanity*

Dear Manager:

I'm betting you're a good person – reasonable in your expectations, respectful of other peoples' feelings, quick to praise, slow to criticize and eager to live by the Golden Rule.

So why do some of your people keep doing things that bring your whole team down and make you look like the village idiot?

Why do you end up leaving work stressed and frustrated and ready to throw in the towel? And wake up the next morning wanting nothing more than to call in sick and crawl back under the covers?

Short answer: you're stuck with managing human beings – and human beings have a nearly endless ability to make things difficult.

Slightly longer answer: You haven't had a chance to learn the absolutely key, simple, straightforward techniques that can make YOU the kind of manager other managers envy and admire – the kind of manager whose team is happy, loyal and productive as all get out.

Problem Employees: If You Can't Live WITH Them and You Can't Live WITHOUT Them You'd Better Find Out How to Fix Them

Let's start out by taking a closer look at the problem and four key facts about managing people in today's workplace.

1. Every manager – even the most successful – is confronted by difficult people from time to time. What makes the successful ones successful is their ability to deal with toxic behavior and turn trash into treasure.
2. As often as not the annoying and disruptive person who's driving everyone nuts is also darn good at his or her job – so simply getting rid of them probably isn't the answer.
3. Even if your heart fairly aches with desire to fire a toxic employee you may not be able to tolerate the threat of legal hassles or the time it takes to replace them
4. At the same time, you KNOW that if you don't do something, your problem employee is going to spread his or her poison, damage morale and make your life a misery. A single rotten apple really CAN spoil the whole barrel.

“Glenn, your seminar is responsible for turning around my whole organization. It's like a different company now!”

One Simple Solution to Your Problems

Have you had it with employees who spread malicious gossip, cry at the slightest criticism, constantly backstab and always blame others for their shortcomings?

Are you sick of being challenged, of having to mediate between employees who have it in for each other, of trying to come up with ways to get people to report on time and actually DO the work they're assigned?

Then you need to know that help is on the way – in the form of a short, intensive and (amazingly enough) enjoyable seminar that reveals all the powerful strategies and tactics you need to defuse tension, derail problem behavior and defang even the most malicious employee. So you can manage those difficult people effectively, bring them solidly in to the team, get them producing and make yourself a hero.

“Glenn understands how to solve the real world challenges of managing people better than anyone.”

Managing Can be Fun -- IF You Know the Secrets to Success

Absolutely true. Managing effectively can be a blast – I know that from doing it myself as the owner of a very successful business for 20 years.

To make it fun, though, YOU have to be in control – ready to pounce on problems before they take hold – empowered with the skills to lead people to success. Skills like the ones I teach in my seminar, including:

- The one strategy you MUST know to fix bad attitudes. Use this “attitude adjustment” tool and watch problem employees turn into stars.
- How to keep employees from questioning you with just five perfectly polite but almost magically powerful words.
- Two simple things that actually motivate people more than money. A plus under any circumstances but a HUGE blessing if your company or organization is on a tight budget. (If you're NOT on a tight budget in today's world, please invite me to come to YOUR seminar.)
- A quick and easy action you can take to end gossip (and no, it doesn't involve a muzzle.)
- How to fire without fear – because you know what you're doing is totally legal. I admit it, even my strategies can't fix every situation. There ARE times when you need to fire someone before they set you up for a lawsuit – or worse.
- How to recognize the line between helping employees and enabling them -- and keep from crossing it. If kindness comes naturally to you, you need this information NOW.
-

That's just a small sample of the things we'll talk about. You'll also learn how to deal with tattletales, whiners, office hypochondriacs (and others who think having a hangover or tickets to the game entitles them to sick leave), folks who throw temper tantrums, bosses who don't back you up and lots more.

“Since attending this seminar, I've changed my whole approach to hiring & firing.

In my office hangs one of Glenn's quotes: 'Don't marry someone you intend to change, or hire people you intend to fix.'”

– Finis Kelso, Owner, Taco Bell of West Plains, MO

How do I cram it all into just one day? Experience counts – and I've coached literally thousands of managers over the years. I know what strategies have allowed them to dramatically increase their income, status and personal satisfaction. And those are exactly the strategies I'll lay out for you – simply, clearly and with YOUR needs in mind

Make it Easy By

Yeah, there's lots more on the other side....

Starting With the Best People

As a *special bonus*, I'll also give you the tools you need to find and hire the very best people. These are the strategies the big headhunters don't want you to know – roadmaps to where the bright, motivated people you need are hiding. You'll learn:

- How to find people who truly WANT to work (as opposed to the far-more-plentiful folks what just want a paycheck) even in tight labor markets.
- How to spot red flags on job applications virtually instantly – the kind of signals that scream “don't waste your time”
- Hiring techniques that absolutely slash turnover – letting you avoid unnecessary recruitment and training that costs money and makes you look bad.
- The most revealing interview questions. Use these if you HAVE to know what kind of person you're talking to.
- A special “Truth Serum” that will give you the power to tell when people are lying. So good, it's like being able to see their noses growing right in front of you.

“I have attended many management classes and this one was the most realistic and down to earth class that I have ever attended.”
