The background of the slide is a photograph of a train in motion, blurred to convey speed. The train is moving from left to right. In the foreground, there is a gravel-covered area, likely a railway yard or track bed. To the left, a signal light pole with two lights (one green, one red) stands. In the distance, a small structure, possibly a bridge or a building, is visible against a sunset or sunrise sky with warm orange and yellow hues. The BNSF Railway logo is superimposed over the center of the image.
