## End of Life (EOL) Notice

### Carmanah R247C/R247, R829C/R829, R820C/R820 Solar-Powered Beacons

Dear Carmanah Customer,

We would like to inform you that the Carmanah R247C/R247, R829C/R829, R820C/R820 solar-powered beacons are being discontinued. There is a last time buy opportunity through March 31, 2019. As inventory is limited, the last time buy date is subject to availability.

These products are being replaced by our higher intensity, more compact, next generation of beacons:

<b>EOL Product</b>	<b>Replacement Product</b>
R247C	-> R247-E Solar-powered, 24/7 flashing beacon with 13 W solar panel
R247	-> R247-F Solar-powered, 24/7 flashing beacon with 30 W solar panel
R829C	-> R829-E Solar-powered, school zone beacon with 13 W solar panel
R829	-> R829-F Solar-powered, school zone beacon with 30 W solar panel
R820C	-> R820-E Solar-powered, crosswalk beacon with 13 W solar panel
R820	-> R820-F Solar-powered, crosswalk beacon with 30 W solar panel

Our E and F series of solar-powered beacons are available now from your Carmanah distributor.

There are no changes to your existing warranty as we will be stocking many repair and replacement components for the foreseeable future. In circumstances where components are unavailable, we will offer credit towards a similar Carmanah product.

If there are any concerns, please contact our Customer Service team at [customerservice@carmanah.com](mailto:customerservice@carmanah.com) and 1-877-722-8877 or myself to discuss.

Regards,
