# BBS Cabinet

---

## Description

The Eagle Battery Backup Systems (BBS) Cabinets are designed to protect batteries and inverters that can keep your intersection running in the event of a power outage. Our cabinets feature an aluminum enclosure for protection from all forms of outdoor natural elements, including rain, sleet, and snow, as well as seepage and splash. The BBS cabinets include a unique front-sloped cabinet top to direct rain away from the main traffic cabinet when using side-of-cabinet (piggyback) mounting. Eagle BBS cabinets can be used with a variety of third-party BBS systems.

## Standard Door Specifications

- Provided with three-point locking mechanism with nylon rollers at the top and bottom.
- 3/4" diameter stainless steel outward turning handle with provisions for padlocking.
- Main Door lock – industrial standard pin tumbler lock with #2 key.
- Louvered inlet with filter to prevent dirt from entering with airflow.
- Closed-cell PVC door seal gasket with polyester film used to prevent sticking.
- Heavy gauge stainless steel continuous hinge utilizing a 1/4" diameter stainless steel hinge pin for door support, carriage bolted in place, for ease of door removal.

## Standard Enclosure Specifications

- Completely fabricated from .125"-thick type 5052-H32, mill-finished aluminum utilizing intermittently welded construction, subsequently weatherproofed with silicone sealant.
- Welded shelves, strengthened to mount batteries up to 150 lbs per shelf.
- The door opening is double-flanged on top to prevent water drops when the door is open. The opening also includes a mount for two door-operated switches.
- Thermo-convection air ventilation system utilized with provisions for mounting fan for forced-air cooling.
- Exhaust outlet openings are provided under the roof over-hang.
- All internal and external hardware is fabricated from non-corrosive material.
- Adjustable 3/8" diameter stainless steel door stop can be latched in various positions.

Eagle BBS Cabinet

*Eagle Traffic Control Systems continues our 80+ year history of providing excellence in the ever evolving traffic industry. All of Eagle's products are developed with the highest standards of engineering and manufacturing. Eagle maintains a superior level of integrity in interactions with all of our business partners and customers. We also take tremendous pride in being model corporate citizens.*
