

# Top-to-Bottom Message

Peter had a life-giving message for Tabitha. Can you figure it out? Fold the paper on the lines. (Long dashes are mountain folds and short dashes are valley folds.)

View Peter's message by folding the mountain folds up so you see only the gray area. Then find out what happened by viewing folding the mountain folds down so you see only the white area. Once you figure out the message, try using the other side of this paper to come up with a side-to-side message.
