

PRESS RELEASE

The Gloucester Meetinghouse Foundation, TownGreen, and the Gloucester Stage Company are delighted to present details on our upcoming **“Cape Ann Climate Future Film Festival.”**

A climate change film festival feels like a good way for these three organizations to unite for the first time, recognizing that we are all one in the face of heat, cold, heavy winds and rising seas.

Here are the details:

What: Cape Ann Climate Future Film Festival

When: October 5, 2024. The doors open at 2:00 p.m. for a light reception catered by Meat & Sweet, local barbecue and dessert favorites. The program begins at 3:00 p.m. and runs until about 5:00 p.m.

Where: Gloucester Stage Company, 267 East Main Street

More: We will show a series of **ten short films** from four continents which will “explore the artistic and human response to climate change,” as noted by the festival’s producers. There will be a community discussion of the films at the end of the screening.

This is a way for people to learn about how climate change is being addressed around the world, and to consider what is happening immediately on Cape Ann. We anticipate vigorous conversation following the films.

Tickets are \$20 each.
