Automated FinCEN BOI Filing Service

Corporate Transparency Act (CTA) &
Beneficial Ownership Information (BOI)

STONEHENGE CONSULTING, PLC a certified public accounting firm has recently formed Stonehenge Compliance, PLC, a subsidiary to handle the compliance related to CTA and BOI reporting requirements. There have been many questions related around “who” should be responsible for filing these reports for Clients. Many law and CPA firms have chosen to consult on the various topics that surround the new requirement but avoid formally filing due to the liability exposure it creates.

Stonehenge has decided to take the leap into supporting and filing the needed reports and take on the liability exposure in conjunction with reporting companies. Stonehenge has streamlined the process via our website www.stonehengeplc.com and a direct link to the BOI filing www.stonehengeplc.com/boi for efficient and automated filing with FinCEN directly. Stonehenge also has bulk filing abilities and separate pricing for companies that have multiple filing requirements.

Our fee for the initial filing is \$400 and will include 12 months of continued filings for any changes that are required. Upon the expiration of the initial 12 months, the annual fee is \$200 for any operating company and will include the next 12 months of filing requirements and any changes necessary. If the company has less than 3 owners and holds real property exclusively, the annual fee is \$100 upon expiration of the initial 12 months.

There are no gimmicks, hidden fees, and no promoters being paid, just professional services by a professional CPA firm. We have partnered with numerous law firms and banks to offer this service on behalf of their clients in order to help with compliance.

If you have any questions or concerns regarding our offering, please contact compliance@stonehengeplc.com and we will respond accordingly.

Respectfully,
The Team at Stonehenge Consulting, PLC

Key Benefits

- ✓ Fast & Easy
