

## The 50 Year Vision and Strategic Planning Committee Update

The 50 Year Vision and Strategic Planning Committee met this week to review the comments to the survey received from members of the parish council. Preliminary feedback was positive and helpful in modifying the questions. We plan to meet again in November, finalize the survey and select an electronic survey platform to distribute the survey.

We are also looking for parish family members to help and possibly join the committee. If you have any interest, please contact a [PC member](#).

Lastly, please visit our Website to educate yourself on the information available and give feedback through the contact us page or via email.
