# ABOUT US

United Way of Junction City/Geary County started in 1961. Since the opening of the United Fund of Junction City-Geary County, the board members have continued to reach out to the community, raising funds, awareness, and support around the issues that matter most; the health, welfare, education, and safety of those within the community.

With the effects of COVID and the financial hardships that have impacted communities all over, the need for help has increased immensely. In trying times, our community has come together, to lift up and protect those in need. As a community, we need to make it our mission that our neighbors will not go hungry, our children will have opportunities to grow and learn. We work together with businesses, government, schools, faith groups, the media, individual community members, and nonprofits - because it takes the whole community to get the kind of results we need. We believe in advancing the common good through a strategic focus on the building blocks of a good life - education, financial stability, health, and basic needs. The ability to effect positive change begins with a single act: your decision to give in a way that matters to you. Whether money, time, or your voice; your action is combined with those of your neighbors, and together with the power to make an impact is multiplied.

Together, we can make a difference!

Together we can LIVE UNITED!
