

SafetyTemp

Thermal Temperature Station

Temperature Monitoring / Face Detection

Temperature Monitoring
Distance: 1 - 6 Feet

Temperature Accuracy:
 $\pm 0.9^{\circ}\text{F}$

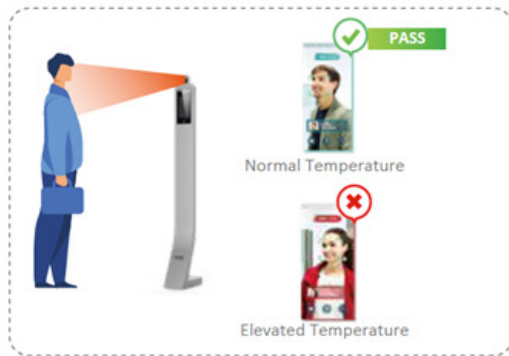

Temperature Monitoring
Speed : 0.2s

Easy Setup and
Portable

Key Features

- 7 Inch Touch Screen Monitor for easy setup
- Accurate monitoring of temperature utilizing thermal imaging technology
- Non-Contact scan to reduce cross-infection
- Portable design with multiple mounting options
- Use of Quick Scanning capability prevents congestion

Scenarios

Application Scenarios

Restaurants

Office Building

School

Factory

Products Selection

Temperature Monitoring Station

- Temperature Monitoring Accuracy: $\pm 0.9^{\circ}\text{F}$
- Temperature Monitoring Distance: 1ft ~ 6ft
- Sound Prompt: Abnormal temperature alarm

Desktop Mount

- Aluminum alloy
- Dimensions: 7.64" x 5.08" x 15.39"

Floor Stand

- 4.8 Feet Tall
- Galvanized Steel

The Thermal Temperature Monitoring Solution is not FDA-cleared or approved. The Solution should not be solely or primarily used to diagnose or exclude a diagnosis of COVID-19 or any other disease. Elevated body temperature should be confirmed with secondary evaluation methods (e.g., an NCI or clinical grade contact thermometer). Users, through their experience with the Solution in the particular environment of use, should determine the significance of any fever or elevated temperature based on the skin telethermographic temperature measurement. Visible thermal patterns are only intended for locating the points from which to extract the thermal measurement.
